Claims 1-7 and 24 are presented for examination.

The amendments and remarks filed on have been received and entered.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-7 and 24 are indefinite in failing to clarify the intended meaning of the substituents of the presented formulas. The claims are indefinite in defining "Ra". The claims are also indefinite as to the phrase "T is independently CR, NR, N, S or O;" There is no T in the presented formula. The phrase "a is 0 or 1;" fails to clarify the intended meaning. The phrase "R1, R3, R4 and R5 independently, R," also lacks a clear meaning. The section in the middle of page 3 of the claims starting with -OR, and ending 3 lines after the first line with -R, also fails to clarify the intended meaning. Claims 24 is also indefinite as to the phrase "and expression of aldose reductase in the retina", which fails to set forth the intended meaning.
